Copy-write Editorials.

Four years more.

Salmon is elected Senator by about 800 majority.

The Democratic ticket in Trigg won by 50 to 350.

Paducah adopted the commission form of government.

The Louisville Democrats have once more done themselves proud.

The weather was fine and the news was even better than the weather.

Democrats regained power in Lexington, defeating a fusion combination.

Angeles, Cal., is ready to celebrate the completion of her \$30,000,000 aqueduct.

Profirio Diaz, former president of Mexico, will spend the winter at Miami, Florida.

Edward Morris, president of Morris & Company, packers, died at Chicago after a year's illness.

And there stood Massachusetts Democratic by 50,000. David I. Walsh, Democrat, is the new governor.

Joseph E. Bell, Democrat, was elected Mayor and the entire Democratic ticket was successful in Indianapolis.

Gov. Suzer goes back to Albany as a member of the Legislature, elected on the Progressive ticket over a Tammany Democrat.

It is a pity that the majorities in all the races were not 500 to 1000. Close contests are always followed by more or less soreness.

The story that President Huerta's resignation had been demanded by President Wilson turned out to be a canard, without any foundation.

The Democrats of Christian county merited the endorsement they received at the hands of the people. The county is to be congratulated.

Some of the Republicans who ran closest to their opponents are said to be talking of contests and are not submitting very gracefully to defeat.

Ortie McManigal, chief witness against the McNamara dynamiters at Los Angeles, has been released from custody on advice of a physician.

J. B. Harvey is the name of the Republican who will represent Bro. Jim Richardson's county in the Legislature. Explain the miracle, James.

The national day of prayer observed by the Woman's Christian Temperance Union throughout the United States has been changed from January 1 to January 12.

One thing should be burned into the brains of Democratic legislators, is that the law allowing women to vote should be repealed by the next Legislature. One experience is enough.

Few tears will be shed over the defeat of Tammany in New York. Mitchell, the fusion nominee, who is to be the next mayor, is a good enough Democrat to be an appointee of President Wilson.

Mrs. Bessie J. Wakefield and Jas. Plew were sentenced Tuesday to be hanged on March 4 next for the murder of William Wakefield, the woman's husband. Wakefield was killed in his home in Cheshire, Conn., last June. Plew turned state's evidence and confessed that he had conspired with Mrs. Wakefield to murder her husband.

## Small But Safe Majorities For The BUSCHEMEYER Whole Democratic County Ticket Are Assured.

THEY RANGE FROM 15 TO 280

### Overwhelming Majorities For All Democratic Candidates In The Various Wards In City.

The Democrats won another sweeping victory in the election Tuesday and both the county and city will remain under Democratic control.

The early returns indicated a close finish in the County races, but when it was found that Hopkinsville had gone Democratic by nearly 100 for the whole ticket and that there had been a big falling off in the Republican strongholds in the county, it became evident there would be small but safe majorities. The final re-

turns were in by eleven o'clock and the crowds of cheering Democrats dispersed to their homes, while the Republicans accepted the result good naturedly.

The women's votes were not returned separately and no accurate figures could be given on the number who voted. The totals show that the candidates for Superintendent ran 815 votes ahead of the average on the respective tickets, L. E. Foster, D., about holding his own

In other words about 400 women voted for Foster and about 400 for Gray. Considering the odds he had to go against, Prof. Foster made a remarkable race.

#### Democratic Majorities.

R. M. Salmon, Senator, 186.  
J. C. Duffy, Representative, 108.  
Walter Knight, Judge, 96.  
L. J. Harris, Clerk, 181.  
Ira D. Smith, Attorney, 15.  
Jewell W. Smith, Sheriff, 262.  
A. E. Mullins, jailer, 194.  
L. E. Foster, Supt., 179.  
W. J. McGee, Assessor, 158.  
J. H. Rice, Coroner, no opposition.  
L. E. Foster led the Democratic ticket with 4031 and W. E. Gray led the Republican ticket with 3836. This was due to the votes of women. The vote in this race was 815 votes larger than in the Sheriff's race, showing that women to that number voted.

## COUNCIL IS EASY WINNER

Louisville Democrats Succeed All Along The Line.

Louisville, Nov. 5.—The election in Louisville yesterday was conducted in a quiet and orderly manner, the Democrats carrying every ward in the city and electing candidates to every office by increased majorities over four years ago. From the returns received it is indicated that the school bond issue, the commission for Jefferson county and the convict-road question carried. W. F. Axton, the Progressive candidate for Mayor, announced last night that he would make a contest, charging fraud.

Dr. John H. Buschemeyer was elected Mayor over Wood Axton by over 3,000. He has been president of the Board of Aldermen for the last four years. He will take the oath of office Nov. 18.

## IS AN ENTIRELY NEW BODY

Colored Republican as Usual Represents the Fifth Ward.

The Democrats had six candidates for Councilmen, two of whom had no opposition. The Republicans had one candidate without opposition. Independent candidates opposed four of the Democrats. The following are the successful candidates:

First Ward, Chas. J. Gee, D., got 77 votes and H. B. Crunk, Independent 11.

Second Ward, S. G. Buckner, D., no opposition.

Third Ward, Dr. J. A. Southall, D., has 45 majority over H. R. Tilford, Independent.

Fourth Ward, G. W. Carloss, D., has 42 over J. W. Robertson, Independent.

Fifth Ward, Hiram S. Smith, colored Republican, had no opposition.

Sixth Ward, R. M. Wooldridge, D., no opposition.

Seventh Ward, Bailey Russell, D., 35 majority over J. E. Anderson, Independent.

The Councilmen are all new men. They will take office the first Monday in December and appoint a full set of city officers to go into office January 5, 1914.

No candidates in three districts.

#### The Vote at Newstead.

At the time the polls closed at Newstead there had been 155 votes cast, not counting about 35 negro women's votes in one race. Of the 155 it is estimated that 100 were Republicans, which would make 45 majority if counted. These votes would change the result in only one contest, that of attorney. Judge Knight would be cut down close but would still win. Esq. Dad, who has 66 majority, would still win by 21 votes. The precinct if counted women and all would not defeat Foster.

Those of Us Who Suffered in the  
Dog Days May Find a Little  
Consolation Here.

For those of us who are forced to spend most of our summers in cities there are a few comforting thoughts, remarks a writer in the Atlantic Monthly. One is that the severest heat does not prompt men to crime, as the social statists have found that the severest cold does. Another is that the worst temperature we are called upon to face falls a long way short of the endurance limit of the human body and brain, as proved by French experiments at the 250 degree level. Another comes from the discovery through the newspapers, with every prolonged hot wave, that we are "breaking the record" in some line or other. This ought to be a stimulus to our pride, and if we wish to carry further the beneficial influence of mental suggestion, all we need to do is to compare what is happening to us with what has happened to various other people at various other times. For instance, when the encyclopedias tell us that in A. D. 627 the heat in France and Germany dried the water sources and a multitude of people died of thirst; that in the battle of Bala, in 1260, more soldiers were killed by the sun than by the weapons of the foe; that in 1803 three great rivers of western Europe went dry, and that in Odessa, in 1889, the noon temperature reached 144 degrees and a sunbade was necessary at five in the morning, we are bound to conclude that we are not so badly off, after all.

## PRESENT LIMIT OF WIRELESS

Depends Largely on Existing Weather  
Conditions, but Possibilities Are  
Apparently Unknown.

According to Prof. J. A. Fleming, several of the most powerful wireless stations are now generating ether waves having a length from crest to crest of about four miles, and these disturbances can be "detected" at distances up to 6,000 miles from their source—that is, four such stations would suffice to "girdle" the earth. Obviously, however, the ability to "detect" the signals over this vast distance, presumably under favorable weather conditions, is a very different thing from the power to maintain commercial communication along the route. As yet the wireless service available to the public covers but a third, or at most half, this distance.

There is as yet no means of determining the practical limit of wireless communication. Improvements in apparatus, perhaps even some new discovery as to methods of stirring up the ether, may revolutionize the art and upset all present standards. But at present even the most successful systems get into serious difficulties when called upon to maintain constant communication over a line 2,000 miles in length. A recent British wireless commission was able to secure but one demonstration on a line 1,000 miles long, although several companies declared their ability much to exceed this distance in a commercial installation.—New York Evening Post.

War Declared on Materialism. To combat the materialism of the present age in earnest a society has just been founded by Edmond Rostand, Maeterlinck and Camille Flammarion and is receiving the enthusiastic support of the thinking public.

A large number of members have

already enrolled themselves among the committeemen being some of the leading figures in French thought.

The founders are calling upon all who are willing to fight for the higher ideals of art, literature and science in the face of the decadence now threatening French taste to join their ranks. Several branches, it is announced, are being formed in the provinces and abroad.

### Another Tribute to the Horse.

When it was first said last April that horseracing was to be resumed in the state of New York, Col. Franklin P. Morgan, who loves sport of any sort, expressed his gratification at the news.

"Horseracing," he said enthusiastically, "is a great and glorious thing. It warms the heart, thrills the brain and puts money into circulation."

"Yes, yes," chimed in the group who was listening to him.

"The only trouble is," added the colonel dryly, "that in the matter of horseracing all of the horse sense is on the track, and none of it in the betting ring."—Popular Magazine.

### Remarkable Alpine Road.

The water gallery of the Simplon road, says Professor McKibben in Good Roads, is one of the interesting features of that international highway built by Napoleon I. It is an arched structure over the roadway, constructed so that a stream passes over the roadway instead of underneath, while openings in the masonry give ventilation to the gallery. Though the railway tunnel now carries most of the through traffic, more than ten thousand persons annually cross the Alps by this road.

### Lights of London.

London will be one of the best lighted cities in the world when the installation of a new system of centrally suspended lamps using high pressure gas with inverted burners has been completed. Although the amount of illumination will be increased by 6,000 candle power, it is estimated that a saving of about \$34,000 a year will be made over the old system.

## Aristocratic Lawmakers.

Glassmaking used at one time to be the most aristocratic of all industries. A French law passed under Louis IX. allowed none but men of noble birth to set up glass-blowing establishments or even to work therein.

For many centuries this was the only trade noblemen could venture to work in without any danger of losing caste. The art of glassmaking reached England through France, and in its early days those engaged in it styled themselves "gentlemen glass blowers."

## Children Cry FOR FLETCHER'S CASTORIA

### Origin of the Term Swan-Song.

The idea of the sentiment conveyed by the words "swan song" is that the swan when dying sings for the first time. As a matter of fact swans do not sing at any time, and this interesting saying is said to be derived from an old Norse legend which has to do with the Valkyries, mythical maidens in armor with wings of a swan, who when they floated over the scene of a battle sang the song of death.

## Children Cry FOR FLETCHER'S CASTORIA

W. H. V.—Mrs. Mary Vane of Springfield, Mass., says, "I hadn't been very well for three years, and at last was taken bad. I could not stand on my feet, I had such pains. I ached all over. I felt like crying all the time. Mother insisted on my taking Cardui. Now I feel well, and do nearly all my housework." No medicine for weak and ailing women, has been so successful as Cardui. It goes to the spot, relieving pain and distress, and building up womanly strength, in a way that will surely please you. Only try it once.

Wash lingerie waists as usual, but do not starch. When dry, dip in borax water, using one tablespoonful of borax to one quart of warm water. Wring out and fold in a towel for a few hours. Then iron dry. The waists will not get mussed nearly as soon as when starched and are easier to iron. When ironing use a small iron. Sprinkle some orris powder under the ironing sheet and you will find that it will give a delicate perfume to the waists.

To have a nice, smooth starch, put a few drops of kerosene in and stir until blended with the starch. It will prevent the starch from sticking. When washing very delicate fabrics, such as muslin, organdy, net, lace, etc., stiffen with gum arabic. Dissolve the gum in hot water to a consistency of mucilage and keep bottled for use. Add a tablespoon to a large cup of water.

Elaborate net waists are best cleaned as follows: Fill a two-quart fruit can with gasoline, put the waist to be cleaned in this, screw the top on well and let stand overnight. In the morning shake the can back and forth. The motion will burn the dirt from the waist. If much soiled, rinse in fresh gasoline. Hang on the line until all odor has disappeared. Shake well and press with a warm iron. Net yokes and sleeves can be very successfully dry cleaned by rubbing gently in pulverized laundry starch and then shaking the starch out.

To clean the lace yoke of a gown without ripping it out, place under the lace a clean Turkish bath towel folded to several thicknesses, then scrub the lace well. An embroidery hoop is also of assistance and protection when cleaning a yoke. Put the soiled part of the yoke in the hoop and clean:

### Tomato Salad.

With the plump, crimson "love apples" at its best, tomato salad may well grace the family board at frequent intervals. Select solid, ripe tomatoes of even size and pour over them boiling water enough to cover. Peel and put on ice. When chilled, cut off a slice from the stem end, and with a spoon handle scoop out the center of the tomato. Cut some celery fine and mix with a mayonnaise or boiled dressing, and fill the tomato, allowing it to come well over the top. Arrange nests of tender lettuce leaves on a dish, put a little mayonnaise on each and the tomato in the center of the dressing, pressing it down so that the dressing will spread out beyond the tomato.

### Planked Chicken.

For two spring chickens, which will serve four persons, a cupful of boiled rice is required, half a pound of mushrooms, one small tumbler of guava jelly and three baked bananas. Stew the mushrooms; put the chicken either in the oven or under the broiler, bone side to the hottest part of the fire. Heat the plank, put the chicken on, bone side down, dust with salt and pepper, and broil on the board under the gas for half an hour; garnish with rice; pour over the mushrooms. Place at the corners small bread patties, holding the guava jelly. Place at the side the bananas and send instantly to the table.

### Fish Chowder.

Fry out dry in the dinner pot some thin slices of pork; put in a layer of potatoes sliced in the same way; also some fish; repeat in the same order until all is in the pot, putting some pepper and salt on each layer of potatoes; split some hard biscuits, dip in water, and put them around the sides and over the top; put in water enough to come into sight. Stew until the potatoes are done, and add half a pint of milk or a teacup of sweet cream before taking up.

### Stuffed Eggs.

For six hard-boiled eggs take one cup of finely-chopped cooked meat, one tablespoon melted butter, one-quarter cup of sweet cream. Season to taste. Cut the eggs in halves, carefully take out yolks and mix to a smooth paste with the melted butter. Add the meat and seasoning, mix with the cream gradually, as it may not all be needed. Stuff the eggs with this mixture, press together and roll in egg and bread crumbs. Fry in hot fat.

### Spotless Linens.

To remove a spot that is liable to be made on a clean tablecloth, fold a towel smoothly under the spot and put a bowl under it beneath the soiled part of the cloth. Pour boiling water through, a little at a time, until the stain disappears. Soak up part of the water with another towel and lay the wet piece smooth on the under towel. Cover and dry with a hot iron.

### Fish Salad.

Left-over boiled or baked fish may be used in an appetizing salad. Pick apart the larger pieces, so that the fish will be flaky. Sprinkle over it a little onion juice and chopped parsley and toss with crisp lettuce leaves in French dressing. Mayonnaise dressing will be even better for those who like it.

### Jelly Coverings.

When using paraffin for covering jellies, possibly you have been troubled by seeing the preserve work up at the side of the glass. To prevent this be sure to tip the glass lightly all around while the paraffin is hot; then all air spaces will be filled in and the trouble avoided.—Ladies' Home Journal.

### SEEKS OUT FRUIT NOVELTIES

Government Investigator Has More  
Fascinating Sport Than the Hunt-  
ing of Wild Animals.

Hunting wild animals may be all right so far as it goes, but how much more romance and how much more value to the world there is in hunting for wild vegetables and plants which can be made use of for the benefit of humanity. F. N. Meyer, the government agricultural explorer, has started on another trip to China and Siberia in search for new fruit novelties which can be introduced into this country. He will be gone three years, and during that time will travel with his own caravan in the wildest parts of eastern Asia.

Whenever he hears of a remarkable fruit he will follow it up and get seeds or cuttings from the tree. This will be sent to Washington for propagation and study. Owing to the great distance it is very difficult to make scions or cuttings preserve their vitality so they can be made to grow. One of the objects of this long journey is to procure cuttings of the famous Feit Ching peach of China.

This peach grows so that it weighs as much as three pounds. On a former trip Mr. Meyer got cuttings from it, but they refused to live when grafted on American stock. Stones from the peaches have been planted, but there is little hope from them, for peach seedlings seldom come true to variety or are of much merit.—Pathfinder.

### LORD ROBERTS' GHOST STORY

Tells How His Father Was Warned by  
Dream of Coming Death of  
His Daughter.

Lord Roberts records a remarkable case of the warning dream. In October, 1853, his father, to whom he was acting A. D. C. at Peshawar, had issued invitations for a dance. Two days before it was to take place he was silent and despondent during breakfast, and eventually told his son that he had had an unpleasant dream, which had visited him several times before and had always been followed by the death of a near relation. As the day fore on his depression grew, and he wanted to put off the dance. His son dissuaded him, but that night the dream returned, and the dance was then postponed. The next morning the post brought news of the sudden death of my half-sister at Lahore, with whom I had stayed on my way to Peshawar."

### BIGGEST PAIR OF TUSKS.

In the stables of the royal palace at Mandalay, in Burma, there may be seen an elephant with a remarkable pair of tusks, which the Burmese declare are the largest in the world. These gigantic tusks measure as much as 7 feet nine inches on the outside curve, with a great circumference of no less than 17 inches. To naturalists the most extraordinary point about these tusks, which are still being carried by their owner, is that they virtually touch the ground and almost meet. Apparently, however, their owner experiences no inconvenience from these long and cumbersome appendages whilst taking exercise. As a zoological curiosity the elephant has naturally attracted wide attention, and it is said that several offers have already been received for the tusks when the animal should see fit to depart this world.—Wide World Magazine.

### OBLIGATIONS TO BE FACED

Life Duties May Not Be Met With  
Indifference, or Subjected  
to Neglect.

A student of Mr. Whistler's once said to him that she did not want to paint in the low tones he recommended; she wanted to keep her colors clear and bright, relates Agnes Repplier, in The Atlantic. "Then," replied Mr. Whistler, "you must keep them in your tubes. It is the only way." If we want bright colors and easy methods we must stay in our tubes, and avoid the inevitable complications of life by careful and consistent uselessness. We may nurse our nerves in comfortable seclusion at home, or we may brace them up in Paris and Nice; it does not matter; we are tube dwellers under any skies. We may be so dependent on amusements that we never call them anything but duties, or we may be as devout as La Fontaine's rat which piously retired from the society of other rats into the heart of a Dutch cheese. We may be so rich that the world forgives us, or so poor that the world exonerates us. In each and every case we destroy life at the roots by a denial of its obligations, a fear of its difficulties, an indifference to its common rewards.

## HOME WEDDING

Miss Ella Sivley and Mr. J. W. Warfield Married Yesterday.

The relatives and close friends witnessed the marriage of Miss Ella Sivley and Mr. J. W. Warfield, which took place at the home of the bride's parents, Mr. and Mrs. Charles E. Sivley, 8 miles south of the city, yesterday afternoon at 4 o'clock, Rev. A. R. Kasey officiating. After the ceremony the happy couple came to the city and took the 5:32 L & N train for Guthrie to spend the balance of the week with the groom's mother.

The bride is the youngest of the four daughters of Mr. and Mrs. Charles E. Sivley and is a young lady of refinement and loving traits of character. The groom is manager of the Stove and China department of the Forbes Mfg. Co., with whom he has been for several years. He is a popular and competent salesman and his many friends wish him and his lovely bride a long life of happiness.

After this week they will go to housekeeping on West Seventeenth street, in the new cottage of Mrs. Matto Buckner Bell.

## W. C. T. U.

The Woman's Christian Temperance Union will meet at the Christian church this afternoon at 2 o'clock instead of 3 o'clock as had been announced. Please note the change in the time of meeting. A large attendance is desired. Visitors are cordially invited.

## Death at Western Hospital.

John Davis, a patient from Crittenden county, sent here about nineteen years ago, died at the Western State Hospital Tuesday of intestinal tuberculosis, aged 44 years. The body was shipped to Slaughtersville yesterday and the interment took place in Webster county.

Those having a surplus need not hesitate to offer them.

## The Youth's Companion In 1914.

Seven college presidents and a number of college instructors, including ex-President Taft, will contribute to The Youth's Companion during 1914.

Then there is Gene Stratton Porter, whose stories of Indiana woods and swamps have made her famous, and Kate Douglas Wiggin, who never wrote a dull line in her life, and Mrs. Burton Harrison, who remembers when conversation was really an art as practised in Washington and in the manor houses of Virginia. And this is just a beginning of the list.

If you know The Companion, you have a pretty clear idea of what is in store for next year's readers. If you do not know, ask us to send you sample copies—for instance, those containing the opening chapter of Arthur Stanwood Pier's fine serial—"His Father's Son."—Full Announcement for 1914 will be sent with the sample copies.

For the year's subscription of \$2 00 there is included The Companion Practical Home Calendar for 1914, and all the issues of the paper for the remaining weeks of 1913, dating from the time the subscription is received.

## Forest Notes.

To secure a merit badge in forestry, boy scouts are required, among other things, to identify 25 kinds of trees.

One of the principal by-products of the national forests of Japan is furnished by mushrooms, which have yielded in one year a revenue of a million dollars.

Articles of clothing from wood fiber are being made in Europe. The material for a suit cost about fifty cents. Clothing made of this material, however, cannot be washed.

One of the largest and most valuable timber trees of the country is the tulip tree, known to lumbermen as yellow poplar. It is related to the magnolias, but it is the only tree of its kind in the world.

The largest tree in the United States is said to be the "Mother of the Forest," a giant redwood in the Calaveras bigtree grove in California. It's supposed to contain 140,619 board feet of lumber. There are, however, many claimants for the honor of being the "largest tree" and the "oldest tree," and these claims, according to foresters can not always be verified.

## Two Runaway Couples.

Mr. Otis Bromfield and Miss Dixie Latham from Hopkinsville were married at the Franklin House in Clarksville Monday.

Mr. Albert Wells and Miss Lillie M. Cook, another runaway couple from Kentucky, were married there Tuesday morning.

## BAPTIST REVIVAL

## Many Additions and Interest Increasing.

WAITING GAME.  
Our Attitude Towards Mexico Justified.

Evangelist Dew will talk to the old people of the city at the 3 o'clock service at the Baptist church today, and a large attendance is expected. Tomorrow afternoon his subject will be "More Taffy and Less Epiphany."

All the night services have been largely attended, most of the time every pew has been filled and chairs have had to be placed in the aisles. The number of additions since the meeting began is about 45, with increasing interest. This is the third week of the revival. No announcement has yet been given out as to their continuance next week.

Dr. Thompson baptized some of the converts Tuesday afternoon.

## Activities of Women.

There are two women railway signalmen in England.

Pennsylvania has allotted \$200,000 for mothers' pensions.

More than 50,000 girls disappear in this country every year.

Over 50,000 women are engaged in dairying and poultry raising in Belgium.

Of the 4,000 members of the school boards in Jersey only forty-nine are women.

The only applicant for examination for the position of government entomologist was a woman.

The recent municipal elections in Sweden resulted in the election of 18 new women councilors and a total of sixty-two councilors in that country.

Telephone operators in Egypt are required to speak English, French, Italian, Greek and Arabic.

Cincinnati will establish a municipal fresh air farm for poor and tired mothers and children.

The new Dutch cabinet has announced its intention of granting the women of Holland the right to vote.

## Athenaeum Postponed.

The November meeting of the Athenaeum is to be held Thursday night of next week, instead of tonight. Dr. F. M. Sikes and Judge J. F. Hanbury are on the program.

The United States occupied Cuba because we had a duty to perform in the interest of the suffering and the weak. A war that was devastating the island had been going on for three years, with increasing atrocities. We relieved a dead-locked situation in a very few days, established peace in Cuba, allowed 200,000 young Spanish soldiers to go back to their homes, and conferred a blessing upon the people of Spain as well as upon those of Cuba. President Wilson has tried to confer a blessing upon the people of Mexico by offering neighborly and disinterested counsel. He has tried to induce the opposing factions to accept our Government as their friend and unite upon some honorable way to restore order and peace. But the factional leaders are selfish and headstrong, and those who overthrew and assassinated Madero have gone too far to talk in unselfish terms about the welfare of their country. What will happen, therefore, nobody knows; and yet the patient, restrained, moderate course and tone of President Wilson and his agents have strengthened rather than weakened the ultimate power of the United States to be of practical service to the people of Mexico. The opportunity will present itself in some form, but what that form may be does not as yet appear. — From "The Progress of the World," in the American Review of Reviews for November.

## Barbershop Changes Owners.

The ownership of the barbershop on Main Street, in the Phoenix building, passed into the hands of J. A. Orange last Tuesday. D. A. Stewart, the popular colored barber, now has a chair with W. E. Peirce, near the L. & N. passenger station.

OF HER TROUBLES.

Miss Hulda Nutt Proves by Anecdote  
That Men Are Just as Foolish  
as the Women.

"It certainly does make me weary, all those innuendoes in the funny papers about the women. One would think by some of the supposedly facetious jokes that we girls didn't have enough intelligence to keep out of the home for the feeble-minded," remarked Hulda Nutt to her sister, Ima, as she pointed to an illustration in the evening paper.

"Now here, for instance, is a re-hashed story about a bridegroom carrying a basket, approaching a narrow creek. He turns to his simple minded bride—I judge she must have been simple or she never would have married him—and he offers to carry her across the stream. This egotistical male jokeshift has the bride make the inane reply: 'But you can't carry both me and the lunch basket. We would be too heavy. You carry me and I will carry the lunch basket.'

"As a matter of fact that foolish chestnut was first recorded about an old man with a basket of eggs and a commendably humane heart, who, as he boarded the street car, observed that the arched necks and cruelly docked tails of the two decrepit horses in front, bespoke a sadly contrasting prosperity in their remote youth. The old man's tender heart was touched at the pitiful sight, and as he took his seat in the car he gently lifted the basket of eggs out the window and held them there all the way of his journey to make the burden lighter for the poor horses. So you see, Ima," she added with an emphatic nod of her head, "the men are every bit as foolish as the women, if not more so."

#### SETTLED THE JUDGE'S DOUBTS

Native Statement of Convicted Murderer Removed All Question as to His Guilt.

When Judge Stewart of Vermont presided at the trial of a negro charged with murder of another of his race he admitted afterward to friends that he had serious doubts of the prisoner's guilt until he began to pronounce sentence.

The negro had pleaded not guilty and repeatedly, on being questioned, had asserted with much emphasis, "I didn't do it!" The evidence was not convincing, and the judge was surprised when the jury brought in a verdict of guilty. His doubts vanished, when, after reminding the negro that he had been tried by a jury of 12 men, etc., he said: "It is my duty to warn you that your days on earth are numbered, and it behooves you to avail yourself of the little remnant of time allotted to you to make peace with God."

Just there the negro broke in with the exclamation, "Ah done dat already, judge, befo' Ah went out ter kill dat niggah!"

#### Many Old People in Berlin.

According to statistics just published Berlin appears to be an extraordinarily healthful place for the aged, who live there in remarkably large numbers. A feature of the figures is the much greater number of old women in proportion to old men, and with every decade above seventy the proportion increases astonishingly. In Berlin the number of men between seventy and eighty is 12,898, while the number of women is 25,204. For Greater Berlin the figures are 20,049 and 37,520 respectively. Of persons between eighty and ninety women are in an enormous majority. For Berlin the figures are 2,036 men and 5,371 women and for Greater Berlin 3,169 men and 7,816 women. Berlin has a large number of nonagenarians, and of these three out of every four are women. In Greater Berlin there are 364 women who have passed their ninetieth birthday, but only 111 men.

#### Moving Picture Animals.

A jungle of several acres, inhabited by wild animals of all countries, many of which are already well trained for the parts they are to play as motion picture actors, is maintained near Los Angeles by one of the big American film-producing companies. It is intended to extend the acreage and accommodations until the motion picture jungle will form the largest single collection of wild animals in the world, and within it will be, and now are, enacted many stirring scenes. A big elephant named "Toddy" is, for instance, the star performer in a film catalogued as "Lost in the Jungle," in which Toddy, during his wanderings in the forest, finds the heroine lying exhausted on the ground, and, kneeling, lifts her to his back and gallantly carries her to safety. All the animals are as conscientiously trained to do acts for the motion picture camera as are the trained animals of a circus.

#### Unpretentious Royal Abode.

King Charles of Roumania has seen many changes, largely effected by himself, in his Balkan kingdom since he arrived there in 1866 after an adventurous journey in disguise from Germany. Notable among them are the changes in his capital and in his own palace. When he made his triumphal entry as the country's new prince the carriage reached a house before which a guard of honor was stationed. "What house is that?" he asked. "That is the palace," replied General Goleksi. The prince, thinking he had misunderstood him, said: "Where is the palace?" And the general was so embarrassed that he could only point silently to the one-story building. The principal feature of the view from the windows on one side was a gypsy encampment, with swine wallowing in the mud road before the palace.

He turns to his simple minded bride—I judge she must have been simple or she never would have married him—and he offers to carry her across the stream. This egotistical male jokeshift has the bride make the inane reply: 'But you can't carry both me and the lunch basket. We would be too heavy. You carry me and I will carry the lunch basket.'

"As a matter of fact that foolish chestnut was first recorded about an old man with a basket of eggs and a commendably humane heart, who, as he boarded the street car, observed that the arched necks and cruelly docked tails of the two decrepit horses in front, bespoke a sadly contrasting prosperity in their remote youth. The old man's tender heart was touched at the pitiful sight, and as he took his seat in the car he gently lifted the basket of eggs out the window and held them there all the way of his journey to make the burden lighter for the poor horses. So you see, Ima," she added with an emphatic nod of her head, "the men are every bit as foolish as the women, if not more so."

"Now here, for instance, is a re-hashed story about a bridegroom carrying a basket, approaching a narrow creek. He turns to his simple minded bride—I judge she must have been simple or she never would have married him—and he offers to carry her across the stream. This egotistical male jokeshift has the bride make the inane reply: 'But you can't carry both me and the lunch basket. We would be too heavy. You carry me and I will carry the lunch basket.'

The Civic League met last Tuesday morning and transacted business of importance. One of the items was to fix a day or days for cleaning up the city. Friday and Saturday, November 21 and 22 was finally agreed upon as the best days and housekeepers of the city are urged to observe one of the two days in cleaning up their premises. It goes without saying that the city authorities will do their part in the work.

A communication from Julie Lathrop, of Washington City, who is chief of the Children's Bureau, was read. Miss Lathrop asks for a test of registering babies. The test is to be made in every State in the Union, Kentucky to be the first.

#### AMUSEMENTS.

Bertha Yoeman enjoys the reputation of being one of the prettiest women on the stage. It was as much as her beautiful coloratura voice and her clever acting ability that caused the management to engage her for the prima donna role in Richard Carle's greatest musical comedy "Mary's Lamb" in which Den McGrath is being featured.

Miss Yeoman's rendition of the popular Carle music is a joy to her listeners and Philip Mindell of "Vanity Fair" criticized her as being the prettiest woman with a real voice that he ever had the pleasure of seeing.

"Mary's Lamb" with a cast of 50 people and a chorus de luxe will be the attraction at Holland's Opera House Thursday night, (tonight) Nov. 6.—Advertisement.

#### Purely Personal.

Miss Jennie Glass left this morning for an extended visit to Miss R. H. DeTreville, Birmingham, Ala.

Mrs. J. W. Overby is visiting in Asheville, N. C.

Norton Garth, of Trenton, was in the city the first of the week on business.

Mrs. C. H. Bleich, who has been quite ill, is better. Her sister, Mrs. C. W. Applegate, of Jackson, Tenn., is with her.

Mrs. Frank Rives has returned from a visit to Smithland.

Miss Mary Goldthwaite has returned from a visit to Louisville.

Miss Jeanie Graham is visiting in Pee-wee Valley.

Miss Lizzie Quarles, who has been living with the family of Dr. M. W. Williams, is now making her home with the family of Mr. John Thurmond, Virginia and Eighteenth Streets.

#### EXAGGERATED IMPRESSION.

"Mr. Meekton says his wife is competent to hold any office in the government."

"That opinion," replied Miss Cayenne, "is the result of his vanity. He thinks that because she can govern him she must be able to govern the entire nation."

#### NEVER MIND.

"Have a cigar, old man."

"No, thanks."

"Why not?"

"I promised my wife I wouldn't smoke."

"Then you don't mind if you do."

#### HOW IT LEAKED OUT.

"When did you learn that he was one of the bank's most trusted employees?"

"The day after he absconded with the funds."

#### NOT NOURISHING.

Doctor—For dinner you should take forty minutes.

Timid Patient—Would it be dangerous to add a bit of meat and some vegetables?

#### BROUGHT ON TROUBLE.

"That fellow certainly is a dub."

"For why?"

"I told him I bossed my wife, and he went and told my wife."

#### SHALLOW OF INTELLECT.

Some men are very interesting for a first interview, but after that they are exhausted and run out.—Charles Caleb Colton.

R. M. SALMON, Senator.

J. C. DUFFY, Representative.

JEWELL SMITH, Sheriff.

LUCIAN HARRIS, Clerk.

#### NO DOUBT ABOUT HIS CLASS

According to Kansas City Paper, Harry Kemp Had No Difficulty Proving He Was a Tramp Poet.

A New York letter the other week mentioned that lots of folks thought at the time that Harry Kemp was being three-sheeted through this land as "the tramp poet" that he was just a poet. But they were wrong. Mr. Kemp is a hobo of purest ray serene. It is a pleasure to certificate him.

"I live," said Mr. Kemp to an editor the other day, "in a shack on the Palisades. I came into town today to sell a poem. This is Friday, and I do not want to go back to the shack before Monday afternoon."

The editor took the poem and read it very carefully and then looked at Kemp's clothes—which were comparatively whole in several places—and then showed that he had a good business mind.

"I'll give you," said the editor, "\$3 for this poem."

The editor thought that Kemp would ask for more and that he could do a bit of pleasant bargaining. But he was disappointed.

"I'll take it," said the tramp poet. "Three dollars is all I'll need for three days in New York."—Kansas City Star.

#### When to Relax.

Dr. Eugenia Hancock of New York says a woman should "positively relax during the noon hour." With the children demanding lunch, the telephone ringing, the grocery boy at the back door and an Armenian lace peddler at the front, not to mention the neighbor running in to borrow the lawn mower, this is very easy, of course.

#### CIRCULATION

Of Newspapers to Be Investigated.

The Postmaster General is preparing to institute a rigid investigation of the statements of circulation filed by newspapers with the Postoffice Department under the act of Aug. 24, 1912, requiring sworn statements of circulation to be filed twice a year.

The department holds that circulation as defined by the law means net paid circulation of the newspapers. Complaints have reached the department that many newspapers have based their circulation reports on distribution other than which is net paid, and investigation and prosecution on such offenses is planned.

#### Auto Killings Murder.

A judicial decision said to be of great importance as a precedent was made here today by Judge Fenimore Cooper when he declined to grant a new trial to men convicted of murder committed in the use of automobiles. There have been convictions for manslaughter in similar circumstances, but this is the first instance in Illinois of conviction and sentence for murder.

The defendants, Frank Hrodek and Laurence Lindbloom, were convicted in Judge Cooper's court respectively of killing Patrick J. Condon, a retired merchant, and Joseph Weiss, a cigar manufacturer.

In both cases testimony was adduced showing that the defendants had been drinking and were driving without regard to the safety of pedestrians.

#### Manganese and Manganiferous Ores.

The annual report on the production of manganese and manganiferous ores, by D. F. Hewett, of the United States Geological Survey, has been published as an advance chapter from Mineral Resources for 1912, and copies will be sent to interested persons free on application to the Director, U. S. Geological Survey, Washington, D. C.

#### The President's Power in Leadership.

The country felt that President Wilson, quite regardless of the precise value of this tariff measure, had scored a great victory in his display of leadership. He had held the Democratic forces together more completely than had been thought possible. Not only did he induce his party to make a good face, but there was actually less grumbling behind the scenes at the end than at the beginning. He has now been in office about eight months. It would be wholly out of accord with all current evidence to say that his administration thus far is not regarded as exceptionally capable and efficient. Mr. Wilson shows statesmanship in the power to bring all his resources to bear firmly upon his main policies. When he called the new Congress into special session to revise the tariff, last March, there was nobody who really believed that so great a work as the reconstruction of the currency and banking system of the United States could also be accomplished in the same session. Yet President Wilson had the high courage to attempt to bring this great thing to pass. Important committees were set at work, the newspapers and the financial community were compelled to give the subject unremitting and urgent attention, bills were formulated, and the measure upon which the administration and the leaders of both houses had agreed was actually put through the House of Representatives and sent for consideration to the other house.—From "The Progress of the World," in the American Review of Reviews for November.

Judge M. D. Brown and Mrs. Brown arrived here from Indianapolis, Ind., Monday night for a visit to relatives before returning to their home in Madisonville.

The Massachusetts law was not to be thus imposing a burden on interstate commerce. He pointed out the business of the Western Union and the Pullman Company was commerce while in the two cases decided today the business of one company was interpreted as taxing interstate commerce or as applying to foreign corporations engaged wholly in interstate commerce. He said that state commerce.
